

Primary

Sensory

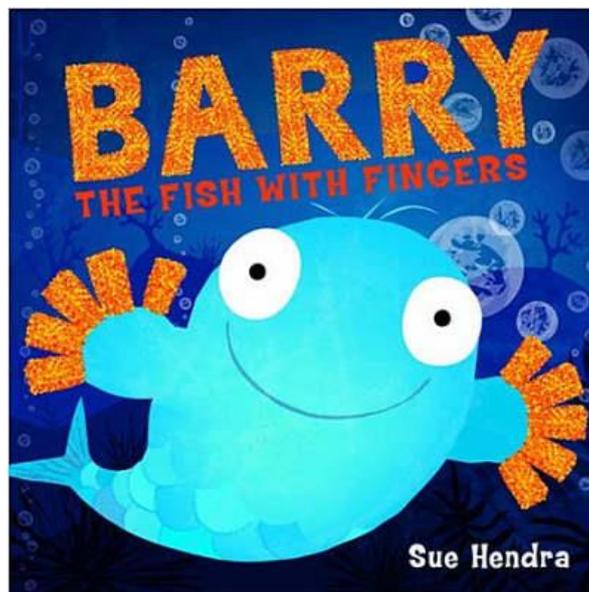

Learners

**Monday 15<sup>th</sup> June 2020**

We have put together a selection of ideas for our more sensory learners related to our topic 'Under the Sea'

Please use these either as additional activities to our weekly plan if you are looking for other play based ideas or feel free to swap activities from the plan for these if they are better suited to your child's learning style.

This week we are looking at the book Barry the Fish with Fingers by Marcus Pfister. It can be found here on YouTube:

#### **Activity 1: Fork fish painting.**

Dip a fork in coloured paint and print it onto your paper in a circle shape. Add some fins and eyes too to make your puffer fish. You might like to make different shape fish like squares and triangles too.

#### **Activity 2: Barry and the Rainbow fish are friends.**

Try making patterns on a foil fish. Cut a fish shape out of foil and spread some different coloured paint on it. Use a cotton bud to make patterns on your fish. You might draw spots, waves or zigzags. You might also like to draw some different shapes too.

**Activity 3: Barry and his friends play hide and seek.**

Play hide and seek with different objects and see if you can find two the same. Collect several pairs of two identical objects and hide them in a tray of shredded paper or tissue paper or jelly or shaving foam. Pull out an object and see if you can find one that is the same. Use the words 'same' and 'different' as you play. You can also play a pairs game this way by hiding the objects under paper/plastic cups and taking it in turns to pick two. Are they the same or different? If they are the same you keep the objects. If they are different put them back and try again.

**Activity 4: Jelly fish sensory bottle.**

Make a jellyfish in a bottle using a translucent plastic bag, some thread, water and blue colouring and a bottle. The instructions can be found here: <https://www.instructables.com/id/How-to-make-a-Jellyfish-in-a-Bottle/>

**Activity 5: Make a frothy sea.**

Put some water and washing up liquid in a bowl. Add a few drops of blue food colouring or paint. Use whisks to mix it up into a froth. Scoop it into different containers, put it in a sieve, transfer it from cup to cup. Mix it and scoop it with a spoon. Add some toy fish or shells or stones if you like but if not have fun playing with the froth!
